Objective

I am a young, enthusiastic 3D animator, eager to make the transition from student to professional. In my college career, I put a lot of hard work and dedication into my projects, no matter how difficult. My knowledge of many animation and video programs, as well as my background in fine arts, principles of design, and colour theory make me a good candidate. I've worked through all steps of a pipeline structure to complete various works, giving me familiarity with each individual aspect. I hope to bring these attributes, as well as new ideas and a sense of humor, to any job I might have.

Skills Profile

- Developed and completed several short animations using animation dailies timetable
- Accustomed to pipeline structure
- Conceived and implemented efficient solutions to unforeseen complications
- Modeled, rigged and animated figures for undergrad thesis projects
- Utilized animation timeline and graph editor
- Maya trained with initial traditional animation background

Summary of Qualifications

Software Knowledge

Adobe After Effects	Autodesk Maya	The Setup Machine
Adobe Flash	Autodesk Mudbox	Uberware Smedge
Adobe Photoshop	Final Cut Pro	Windows/Mac Systems
Adobe Premiere	Pixologic ZBrush	

Traditional Background
